- In Court Operation
- Software Support and Training

Meet our senior consultants. Both Connie and Bill have logged over 350 courtroom appearances across the nation

Connie Martin has over 25 years experience in records management, litigation support and trial consulting. She has supported in excess of 200 electronic trials nationally. Connie has been supporting Summation products for over 15 years and has extensive experience with the implementation and rollout of software applications. She is also certified in Concordance, Trial Director, Legal Access Ware and the CaseMap Suite of products. Connie provides CLE seminars to law firms, corporate litigation departments and speaks at conferences internationally.

Bill Mayleben has extensive litigation and computer experience. Prior to working as an electronic trial consultant Bill worked in the technology field providing full service support for small to medium sized businesses. For the past 10 years Bill has been partnering with law firms in the creation of litigation databases, document management and all electronic trial support. His practice includes work in the areas of commercial, intellectual property, medical malpractice and product liability litigation. Bill provides trial consulting to clients nationally. This allows him to travel to federal and state courtrooms across the United States. Bill also presents on the subject of courtroom technology at law firms and legal seminars.
